

# 1917

## 1916-1918

The unilateral [suboccipital approach](#) was popularized by Woolsey (1903) and with great contributions by [Fedor Krause](#) (1905).

After several refinements and modifications through different dedicated neurosurgeons (Fish, House and Seiffert , Dandy's suboccipital approach (1917) with an ipsilateral suboccipital flap evolved to the [retrosigmoid transmeatal approach](#).
