---

Mr. Karl-Christian Storz is a Founder of KARL STORZ GmbH & Co. KG. Mr. Storz began producing instruments for ENT specialists in 1945. Mr. Storz's intention was to develop instruments which would enable the practitioner to look inside the human body. He set out to introduce very bright, but cold light into the body cavities through the instrument, thus providing excellent visibility while at the same time allowing objective documentation by means of image transmission. ...
